PROFESSIONAL SUMMARY

Applied Informatics Engineering graduate from Universitas Logistik dan Bisnis Internasional (ULBI) with experience in front-end and mobile development, quality assurance, deep learning, and interactive dashboard development. Experienced with Flutter, Dart, Python, Streamlit, Katalon Studio, and Microsoft Excel through internship and academic projects. Strong in teamwork, communication, problem solving, and continuous learning, with an interest in Front-End Development, Mobile Development, Quality Assurance, IT Support, and Technical Support.

WORK EXPERIENCE

PT Pos Indonesia (Persero) | ***Mobile Front-End Developer Intern*** **Oct 2025 – Feb 2026**

- Contributed to the front-end development of a mobile Mailing Room application as one of two front-end developers in a three-person team.
- Implemented mobile interfaces using Flutter and Dart to support digital mail management and tracking workflows.
- Contributed to user interfaces for registration, login, dashboard, mail delivery, mail details, and mail tracking features.
- Collaborated with the back-end developer and fellow front-end developer to align interface implementation with system requirements.

PT Wredatama Mitra Telematika | ***Assurance Intern*** **Oct 2019 – Nov 2019**

- Recorded technician attendance and field activity data in Microsoft Excel to support operational monitoring and documentation.
- Recorded ODP information to help identify cable locations for new installations and network issue checks.
- Tracked customer complaint and new-installation tickets through the Telkom/IndiHome system and shared relevant ticket information with technicians.
- Monitored ticket progress and technician responses to support timely follow-up of customer service issues.

Education

Bachelor's Degree — Applied Informatics Engineering (Computer Science) **2022 – 2026**

Universitas Logistik dan Bisnis Internasional (ULBI)

- GPA: 3.57 / 4.00

Telecommunication Transmission Engineering (Teknik Transmisi Telekomunikasi) **2017 – 2020**

SMK Bina Putera Nusantara

PROJECT EXPERIENCE

Tutorial Mudah Membuat Website Penyewaan Alat-Alat Catering — Front-End Developer **2024**

Developed a catering equipment rental website using PHP and MySQL to support digital management of catering equipment rental activities.

IDIBIZ — Quality Assurance **2025**

Conducted manual and automated website testing using Katalon Studio.

KaloriKu — Front-End Developer **2025**

Contributed to the KaloriKu mobile application front-end using Dart and Flutter.

Letter Archive Classification Dashboard — Deep Learning **2025**

Developed an interactive Streamlit dashboard to present deep learning model evaluation results for letter archive classification.

NLP-Based Document Classification — Systematic Literature Review **2026**

Conducted a systematic literature review on NLP-based document classification using deep learning.

Indonesian News Classification Using CNN & Attention-BiLSTM — Deep Learning **2026**

Developed an interactive Streamlit dashboard to evaluate CNN and Attention-BiLSTM models for Indonesian-language news classification.

Mailing Room Mobile Application — Front-End Developer **2025-2026**

Contributed to the Mailing Room mobile app using Flutter and Dart as a front-end developer in a three-person team.

ACHIEVEMENTS & PUBLICATIONS

Accepted Paper **2026**

“Perbandingan Kinerja CNN dan Attention-BiLSTM pada Klasifikasi Berita Berbahasa Indonesia dengan Variasi Representasi Teks”

Publisher: Jurnal Ilmiah Informatika Komputer

Published Paper **2026**

“Deep Learning Evaluation for Interactive Dashboard-Base Mail Classification”

Publisher: NUANSA INFORMATIKA

Published Paper **2026**

“Sentiment Analysis for Delivery Pricing Optimization: Naïve Bayes Evaluation on Gojek Reviews”

Publisher: NUANSA INFORMATIKA

Published Book **2023**

“Tutorial Mudah Membuat Website Penyewaan Alat-Alat Catering”

Publisher: Penerbit Buku Pedia

EXPERTISE / SKILLS

Front-End Development
HTML, CSS, JavaScript

Data & AI
Deep Learning, Streamlit

Software
Python

Quality Assurance
Manual Testing, Katalon Studio

Mobile Development
Dart, Flutter

Tools

Microsoft Word, Microsoft Excel, Microsoft Power, VS Code, Katalon Studio, Android Studio, GitHub, Canva, Trello,Cisco

Communication, Teamwork, Problem Solving, Time Management

LANGUAGES

Indonesian — Native
English — Basic

CERTIFICATIONS

Introduction to JavaScript
Great Learning Academy

Go Programming Language
Great Learning Academy

Junior Network Technician
BNSP (National Professional Certification Agency)

ORGANIZATIONAL EXPERIENCE

Himpunan Teknik Informatika (HIMATIF) ULBI | 2023-2025

- Event Committee Member & Event Chair — Kuliah Umum Teknik Informatika 2024
- Coordinated preparation and execution of Kuliah Umum Teknik Informatika 2024 in collaboration with the organizing committee.

SMK Organizations & Committees

- MPK — Treasurer
- B-Config Committee — Treasurer
- Student Election Committee — Committee Member
- Bina Shakti Haiking Committee — Committee Member
- Pramuka Masa Tamu Camping Committee — Mentor / Person in Charge
